Claims 3-7 are pending in this application.

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a non-statutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 3-7 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-5 of U.S. Patent No. 5,989,595. Although the conflicting claims are not identical, they are not patentably distinct from each other because the compositions and method of the patented claims encompass the compositions and method of instant claims 3-7. Note that the temperature range in the instant claims includes the range in the patented claims.

It is noted for the record that the Examiner called Mr. Haley on 6/16/00 to discuss an Examiner's amendment to claims 5-7 to change "includes" to --- comprises ---. Mr. Haley authorized the proposed amendment, but the Examiner subsequently found the need to make the above ground of rejection. As an Examiner's amendment cannot be entered where a rejection is still outstanding, the discussed change has not been entered. It is requested that applicant so amend the claims in response to this Office Action. Note that the discussed amendatory language

Art Unit: 1616

merely further clarifies the stabilizer component – as the present language is used in U.S. Patent 5,989,595, the Examiner is not implying that the language is defective. The change is an optional one that utilizes the standard open claim language “comprises.”

A facsimile center has been established in Technology Center 1600. The hours of operation are Monday through Friday, 8:45 AM to 4:45 PM. The telecopier numbers for accessing the facsimile machines are (703) 308-4556 or (703) 305-3592.

Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Examiner Pak whose telephone number is (703) 308-4538. The Examiner can normally be reached on Monday through Thursday from 8:00 AM to 5:30 PM. The Examiner can also be reached on alternate Fridays.

If attempts to reach the Examiner by telephone are unsuccessful, the Examiner's Supervisor, Mr. José Dees, can be reached on (703) 308-4628.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-1235.
